MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Dr. Hall re Peripheral Reconnaissance

Al Hall called me today and suggested that I might like to sit in with him on a preliminary review on the 20th preparatory to a review of this subject with the Secretary of Defense on 23 August. I checked with General Allen, who advised that our schedule contemplates sending a draft paper to USIB Members on the 18th and following this with a USIB meeting on the 23rd. At his suggestion, I called Dr. Hall back with the idea that Mr. Procter would attend the 20 August meeting and be prepared to discuss our part of the study. I added that, if desired, I would be available to attend the 23 August meeting with the Secretary of Defense, provided it was in the afternoon so that I could have had the USIB replies in the morning. Dr. Hall said that he thought this would make sense and would confirm. Could DD/I please count on making this meeting.
